## Premier Awards.

The first of these awards is the Rector's award for courage

The recipient of the courage award this year is a young man who has faced several hurdles in his young life.

He is dyslexic and this problem was diagnosed while he was at intermediate and one of his teachers realised that his frustration with this problem was driving him to walk about and never sit still to learn. He disciplined the young man to sit still and focus and today he is a student who is determined, diligent, quiet and unassuming to a point some do not realise he has the difficulty. In Years 9 and 10 he began to grow faster than was normal resulting in his heart being stretched and in places twisted. He plays ice hockey and would have to come out of a game and lie down to recover. He had a major problem with cardio fibrillation and irregular heart beats and needed a heart operation. He was to be operated on in Christchurch on February 22<sup>nd</sup> and was ready to go when the earthquake struck. They needed the theatre so his operation was postponed for 10 days. He was operated on and is back playing ice hockey and applying himself to his studies, appearing to be an average student. This year's recipient is Mitchell Keenan.
